

PERFORATED DIFFUSERS

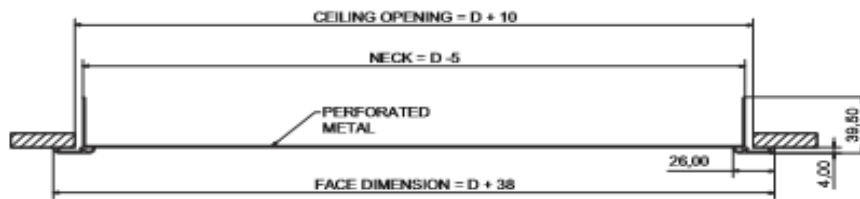

The Polyaire PD Perforated Diffuser are available in stock in a 595 x 595mm tile replacer size.

The perforated face blends in very well with the acoustic tiles of a typical suspended ceiling and can be used for supply, return, relief and exhaust air applications.

Standard construction is of a fixed core while a hinged core + filter is also available.

Standard finish is white RAL9010 while other finishes are available to suit the interior and architectural design requirements.
